THE UNIVERSITY OF NEW SOUTH WALES

CALENDAR

2011
Arms of
THE UNIVERSITY OF
NEW SOUTH WALES

Granted by the College of Heralds, London,
3 March 1952

In 1994 the University title was added to the
Arms to create the new University Symbol
shown.

Heraldic Description of the Arms

Argent on a Cross Gules a Lion passant guardant between four Mullets of eight points. Or a Chief Sable
charged with an open Book proper thereon the word SCIENTIA in letters also Sable.

The lion and the four stars of the Southern Cross on the Cross of St George have reference to the State of New
South Wales which brought the University into being; the open book with SCIENTIA across its page reminds
us of its original purpose. Beneath the shield is the motto ‘Manu et Mente’ (‘with hand and mind’), which
was the motto of the Sydney Technical College, from which the University has developed. The motto is not
an integral part of the Grant of Arms and could be changed at will; but it was the opinion of the University
Council that the relationship with the parent institution should in some way be recorded.
Aspiration
UNSW’s aspiration is to be a leading research intensive university in the Asia-Pacific region, focusing on contemporary and social issues through defined strengths in professional and scientific fields – a peer in good standing with the best globally.

** Vice-Chancellor's Award for Teaching Excellence Using Educational Technology
University Organisation

The University’s academic organisation includes eight Faculties based in Sydney, NSW, and the University College at the Australian Defence Force Academy in Canberra, ACT (UNSW@ADFA). The Faculties are groupings of schools, according to academic disciplines, through which the academic staff conduct teaching at undergraduate, postgraduate and higher degree level, and pursue research and scholarly investigations. A high level organisational chart for the University is available at www.unsw.edu.au/about/pad/orgstructure.html.

Each Faculty has a Dean who is responsible to the Vice-Chancellor for the administrative, financial and academic affairs of the Faculty. Faculty Boards are established under the University Rules. They are responsible for supervising teaching, conducting examinations and encouraging scholarship and research in relevant areas of study. Each Faculty Board comprises professors, associate professors, senior lecturers, and associate lecturers in the relevant departments, ex officio members, elected students, and other persons appointed as members. Faculty Boards and their committees meet several times each year.

The University also provides teaching and research activities at its teaching hospitals, field stations, the Manly Vale Water Research Laboratory and the Randwick Campus, where some of the schools have facilities and the Institute of Languages is located.

Detailed information on each Faculty and School and the programs offered at UNSW is available in the UNSW Handbook (www.handbook.unsw.edu.au).

University College, Australian Defence Force Academy

The University College is located at the Australian Defence Force Academy (ADFA) in Canberra and was established in 1981. Academic programs are delivered through the University College (UNSW@ADFA), which is a Faculty of the University. UNSW@ADFA provides programs of study leading to the award of degrees in Arts, Business, Engineering, Information Technology, Science and Technology at pass and honours level, and the Chief of Defence Force Student Programs are available for high-achieving students.

Entry to UNSW@ADFA's undergraduate programs is by selection. Candidates must have reached an approved academic standard and have met the requirements of the branch of the Services to which they have been recruited.

UNSW@ADFA also offers postgraduate research and coursework programs to serving members and other employees of the Australian Defence Organisation, as well as to civilians including international students. Most postgraduate coursework programs can be undertaken by distance mode.

A summary of the programs offered by UNSW@ADFA can be found in the section 'Schedule of UNSW Programs' in this Calendar and is published in detail in the annual UNSW@ADFA Undergraduate Studies Guide or the UNSW@ADFA Postgraduate Studies Guide. For further information, refer also to the website www.unsw.adfa.edu.au or contact Student Administrative Services, Tel: (02) 6268 6000, Email: sas@adfa.edu.au.

UNSW Foundation Studies
UNSW Foundation Studies is celebrating 22 years as Australia’s leading provider of university preparation programs that provide students with both a university entry qualification and the necessary skills and knowledge to be successful in future academic studies. The UNSW Foundation Studies programs prepare overseas students (and Australian students with an international education background) for undergraduate study.

UNSW Foundation Year Program
These programs provide a full academic program of at least two semesters. UNSW Foundation Year students study a chosen stream (i.e. a set program of courses) within one of four broad discipline areas determined by their desired undergraduate studies. The available streams are Science (Physical Science, Life Science); Commerce (Commerce, Commerce Actuarial); Arts (Arts & Social Sciences, International Studies, Arts/Law); Design & Building (Built Environment, Fine Arts, Design & Media).

The programs are offered on campus and at selected locations in NSW and offshore in Malaysia, Indonesia, Vietnam, Laos and China. Applicants must meet a minimum age requirement, have completed the equivalent of at least eleven years of schooling at an acceptable level, and must have met certain formal standards in English language proficiency. Foundation year programs are recognised for direct entry for undergraduate programs by most universities in Australia and New Zealand.

**Standard Plus Program – 12 months** is an extended foundation program recommended for students with strong English language proficiency (IELTS 5.5 or equivalent) who need or would like a slower pace of tuition.

**Standard Program – 9 months** is recommended for students with stronger English language proficiency (IELTS 5.5 with a minimum of 5.0 in individual skills or equivalent) and solid academic results.

**English Plus Program – 10 weeks** plus is recommended for students who meet the academic requirements for entry but have moderate English language proficiency (IELTS 5.0 or equivalent).

The Transition Program
**Transition Program – 19 weeks** is for international students with very strong English language proficiency (IELTS 6.0 or equivalent).

The Transition Program is a one semester university preparation and entry program for international students who have already completed their high school studies (e.g. A-Level qualifications). Only the Physical Science and Commerce streams are currently offered, commencing in August each year, with successful students entering UNSW in Semester One the following year.

Mathematics Skills Program
The Mathematics Skills Program is a 12 week course which provides UNSW undergraduates with competency in mathematics, equivalent to the HSC Mathematics 2 unit level. The course is offered on weekday evenings during each session. For further details, contact the UNSW Admissions Office by telephone on 61 2 9385 3228.

Nura Gili

Nura Gili Indigenous Programs is the Indigenous education support unit for UNSW. The unit is involved in teaching and research, supporting Indigenous students on campus, recruiting Indigenous students to UNSW and supporting and recruiting Indigenous staff across UNSW.

The words Nura Gili are from the language of the Eora, Nura meaning ‘place’ and Gili meaning ‘fire/light’. Nura Gili at UNSW brings together these concepts to create the meaning ‘place of fire and light’ which is significant because:

• The theme of place remains important to the many cultures of Indigenous Australia. It is therefore important for Nura Gili at the University of New South Wales to acknowledge and recognise the very place that we have all come together on to work, share, study and learn.

• Nura Gili and UNSW are both located near an 8000 year old campsite within the grounds of Prince of Wales Hospital, within which the people of the area taught culture, history and subsistence. From an age old past through to the present the site holds significance as a place of gathering and meeting, teaching and sharing.

• The concept of a fireplace, and fire in general, reflects the warm, relaxed and nurturing environment created by age-old fires many years ago and recreated today by the staff and students of Nura Gili.

• The centre values the potential that education can offer, and with the theme of the fireplace in mind, we invite Indigenous and non-Indigenous people to gather, learn and share together, to light a torch of their own, to guide them, and light their way as they create their own journey.

Nura Gili encourages self-empowerment within an inspiring and supportive environment that celebrates learning, diversity and the achievement of social justice. To achieve this vision, Nura Gili strives for excellence in educational services. Nura Gili works towards assuring participation and access to all the programs it offers. The staff and students at Nura Gili support community outreach programs to actively spread the message of the availability of tertiary studies. Staff and students also work to promote the centrality of arts, culture and heritage for Aboriginal and Torres Strait Islander Peoples - throughout UNSW and the wider community. The students and staff at Nura Gili are involved in activities to develop and strengthen the Indigenous community on campus and participate in wider community events across Indigenous communities in Sydney and NSW.

Nura Gili has three locations across UNSW. The Nura Gili Student Centre (47 Botany St) provides support and information for potential and existing Aboriginal and Torres Strait Islander students at UNSW. Facilities include computer and printing facilities and a lounge area. Staff are available to provide personal and pastoral support, as well as information about programs, housing and scholarships, etc. Indigenous student recruitment, support, retention (including the tutorial program) and school/outreach programs are managed by staff located at the Student Centre. Nura Gili facilitates programs to recruit and support Indigenous students at UNSW at all levels of study, including organising a number of popular pathways programs such as the UNSW Indigenous Winter School for students in Years 10, 11 and 12.

The Nura Gili Resource Centre (Level 1 Library, opposite CLB) contains one of Australia’s largest collections of print materials on Australian Indigenous Studies as well as audio-visual materials. The unit’s teaching and research activities are run from this location including undergraduate courses, the Indigenous Studies postgraduate Master of Indigenous Studies program. The collection is a non-borrowing resource that is managed by a dedicated librarian who can assist staff and students with locating materials. Study spaces are also available Indigenous students or for students undertaking courses taught by Nura Gili.

The Nura Gili Program Centre (26 Botany St) houses the administration of Nura Gili including the Director, General Manager and the Indigenous Employment Coordinator for UNSW.

As Australia’s leading international university we are dedicated to providing a range of overseas experiences at over 200 universities. Our international connections, including Universitas21, are second to none and open pathways to exciting education programs in Asia, North America, Europe, and South America.

Students who receive Youth Allowance or other types of scholarships may usually continue to receive these benefits while on a formal student exchange.

Other Government Policies
The NSW Health Department and the NSW Department of Education and Training have special requirements and policies of which students of health-related and education programs should be aware. The requirements relate to:
- clinical/internship placements which must be undertaken as part of your program and
- procedures for employment after you have completed the program

Health-related Programs
Criminal record checks
The NSW Department of Health has a policy whereby all students undertaking clinical placements, or who require access in any capacity to facilities operated by the Department, are required to undergo a Criminal Record Check. These facilities include Teaching Hospitals used by UNSW in its Medicine and Exercise Physiology programs. It requires this check because it has a duty of care to all patients and clients receiving services from the Department. Students are required to obtain a National Police Record Certificate from an Australian State or Territory Police Service. Further details can be obtained from the Program Authority.

Infectious diseases
Students required to complete clinical training in the NSW hospital system will be subject to various guidelines and procedures laid down for health workers by the NSW Department of Health relating to immunisation, infection and blood-borne viruses. Further details can be obtained from the Program Authority.

Working with Children
Under the Child Protection (Prohibited Employment) Act 1998, students who as part of their enrolment are required to work with children must disclose whether they are a ‘prohibited person’; that is, if they have been convicted of a serious sex offence. It is an offence for a ‘prohibited person’ to work with children.

Education Programs
Working with Children
Under the Child Protection (Prohibited Employment) Act 1998, students who as part of their enrolment are required to work with children must disclose whether they are a ‘prohibited person’; that is, if they have been convicted of a serious sex offence. It is an offence for a ‘prohibited person’ to work with children.

Education Services for Overseas Students (ESOS) Act 2000
The ESOS Act is Commonwealth Government legislation designed to ensure providers of education and training are regulated in the delivery of education services to international students.

All providers and programs available to international students are required to be registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). A National Code of Practice has been established which provides for consistent standards for the registration and conduct of registered providers and the conduct of persons who deliver educational services on behalf of registered providers.

The Act also provides for obligations and restrictions on students to comply with the conditions of their student visa. Under the Act, the University is required to monitor and report on some of these conditions to the Department of Immigration and Citizenship (DIAC).

Student Development has responsibility for coordinating ESOS compliance and reporting requirements under the ESOS Act.

For further information, please refer to the website: For students: https://my.unsw.edu.au/student/resources/ESOSstudent.html, For staff: https://my.unsw.edu.au/student/Staff/ESOSstaff.html or contact Student Development-International, Tel: (+61 2) 9385 3065 or Email: esos@unsw.edu.au.

Identification of Courses and Course Fees 2011

A course is defined by the Academic Board as a unit of instruction approved by the University as being a discrete part of the requirements for a program offered by the University.

Each approved course of the University is identified by a sequence of eight characters, consisting of a four character alphabetical prefix which identifies the subject area, and a four digit numeric suffix which identifies the course. Each course has a unit of credit value defined.

Course identifiers are approved by the Registrar and the system of allocation is based on the following guidelines:

1. A four character alphabetical prefix is used to indicate the subject areas. This usually correlates with the authority offering the course (normally a School of the University), but in some cases identifies subject specialisations or cross-disciplinary subject areas.

2. Each course identifier is unique and is not used for more than one course title.

Courses offered are listed in full in the UNSW Handbook. The subject areas and organisational units for each identifying alphabetical prefix are also described in the specialisation pages in the Handbook (www.handbook.unsw.edu.au).

Course Prefixes and Associated Fees Per Unit of Credit (UOC)

The following table shows indicative tuition fee amounts for 2011 (dependent on your fee type). The fees listed on this table are in Australian dollars (AUD). Tuition fees are reviewed annually and may increase each year. The University of New South Wales makes every attempt to ensure that all information is correct at the time of publication. However, the University reserves the right to amend any or all of the information below without notice in response to changing circumstances or for any other reason.

A standard semester academic load is 24 UOC (48 UOC per annum).

Fees for courses are charged by unit of credit according to the classification of the course (that is undergraduate, postgraduate, research) and then the classification of the student.

To calculate the charge for a course refer to the course prefix, appropriate course classification and student classification to determine the fee per unit of credit, then multiply by the number of UOC.

For Example: An International student is enrolling in a Faculty of Arts and Social Sciences course, ARTS1030, which has a value of 6 units of credit and is classified as Undergraduate.

The fee for this course will be $495 x 6 = $2970.00

Non-award course fees are also charged according to the classification of the course, as above.

The fees listed are applicable to students who commenced study from Summer Session 2003 onwards.

General Education Program

UNSW requires that undergraduate students undertake a structured program in General Education as an integral part of studies for their degree. The University believes that a general education complements the more specialised learning undertaken in a student's chosen field of study and contributes to the flexibility which graduates are increasingly required to demonstrate. Employers repeatedly point to the complex nature of the modern work environment and advise that they highly value graduates with the skills provided by a broad general education, in addition to the specialised knowledge provided in more narrowly defined degree programs. As well, over many years graduates of this University have reported that they greatly valued their General Education studies, which are found to be relevant to both career and personal development.

The General Education Program at UNSW intends to broaden and deepen students' understanding of the environment in which they live and work and to enhance their critical analysis skills. Above all, the program presents students with interesting, challenging and enjoyable opportunities to pursue their own intellectual curiosity.

Objectives of the General Education Program

The following objectives were approved by the Council of the University in December 1994. (Minor changes were approved by Council in 2005).

1. To provide a learning environment in which students acquire, develop, and deploy skills of rational thought and critical analysis.
2. To enable students to evaluate arguments and information.
3. To empower students to systematically challenge received traditions of knowledge, beliefs and values.
4. To enable students to acquire skills and competencies, including appropriate written and spoken communication skills.
5. To ensure that students examine the purposes and consequences of their education and experience at University, and to foster acceptance of professional and ethical action and the social responsibility of graduates.
6. To foster among students the competence and the confidence to contribute creatively and responsibly to the development of their society.
7. To provide structured opportunities for students from disparate disciplines to interact cooperatively within a learning situation.
8. To provide opportunities for students to explore discipline and paradigm bases other than those of their professional or major disciplinary specialisation through non-specialist courses offered in those other areas.
9. To provide an environment in which students are able to experience the benefits of moving beyond the knowledge boundaries of a single discipline and explore cross and interdisciplinary connections, and cross-cultural contexts.
10. To provide a learning environment and teaching methodology in which students can bring the approaches of a number of disciplines to bear on a complex problem or issue.

General Education Requirements

The University's basic requirements are the same for students in all single degree programs:

(a) Students must satisfactorily complete a minimum of 12 units of credit (UoC) in General Education courses or their equivalent (unless otherwise entitled to exemption). Combined undergraduate degrees offered with another Faculty and leading to the award of two degrees satisfy the requirement (12 UoC in General Education) within the program.

(b) Effective from Semester 2, 2008, to meet their 12 UoC General Education requirement, students may take up to 12 UoC of General Education, or courses substituted for General Education, from any Faculty or Faculties, other than the Faculty that is the authority for the program in which the student is enrolled. ADFA students must take courses from outside their home discipline cluster.

(c) Students with an identified need may substitute approved academic English courses for up to 6 UoC of General Education.

To provide greater depth and academic rigor in General Education, the University will move to 6 UoC General Education courses. 3 UoC General Education courses will continue to be offered during the transition period but no new 3 UoC designated General Education courses will be introduced. Remaining 3 UoC courses were reviewed in Semester 2, 2009 and will be discontinued by the end of 2011.
The University, in common with other large organisations, has established rules and procedures which are designed for the benefit of all members of the University. In some cases there are penalties (e.g. fines or exclusion from examinations) for non-compliance.

Students should refer, in the first instance, to myUNSW (https://my.unsw.edu.au) where University policies and procedures are listed in detail as well as information regarding fees, online enrolment and a range of student services.

Giving to the University of New South Wales

Since its foundation in 1949 the University of New South Wales has contributed to the prosperity and development of industry and commerce in Australia through its teaching, research and community outreach. While it receives support from governments, the University relies to a considerable extent on funds from a diverse range of other sources in order to continue its vital role of high-level teaching, scholarship and research on which so much of society’s development and ongoing success depends.

The UNSW Foundation gives particular emphasis to growing its endowment, while the capital base generates funds for use in perpetuity. An endowed gift today will still deliver benefits into the next century, whether by supporting scholarships, enabling research or rewarding other aspects of the University’s aspiration and mission.

The UNSW Foundation is also responsible for development activities, including the Vice-Chancellor’s Annual Appeal, raising philanthropic gifts for scholarships, research and capital development projects, such as the Lowy Cancer Research Centre, the Gateway at COFA and the Tyree Energy Technologies Building.

The Foundation funds have grown from $3m in the mid 1990’s to over $76 million in 2010. The Foundation last year disbursed around $15 million in earnings from endowed and beneficial funds for UNSW activities. The UNSW Foundation ensures that the highest standards of financial probity and accountability are applied to its activities. In 2006 the University raised $5.6m and in 2009 this has grown to $16.6m an increase of 200%.

Bequests are another way of leaving a legacy to support future generations. All contributions, large and small add significant value as they allow UNSW to continue to offer quality education and enable the University to tackle important global issues through high quality research.

Individuals, foundations, corporations and organisations wishing to support the University’s advancement through philanthropic support are encouraged to contribute to UNSW by contacting the Chief Executive on 61 2 9385 3277, email to unswfoundation@unsw.edu.au or visit the website at www.giving.unsw.edu.au.

Gifts to the University are tax deductible.
UNSW Scholarships
The university offers a wide variety of scholarships for study at UNSW. Many of these have been made available by the generous donations and bequests of private donors, organisations, and industry leaders.
Scholarships are awarded to reward academic and/or sporting excellence, to assist students from rural areas or those with financial disadvantage, for indigenous students, for students wanting to study a particular program, and for those students undertaking approved travel within a study program.
Scholarships are available to high school leavers and throughout a student's academic career. For further details and the latest scholarship listings, please visit: www.scholarships.unsw.edu.au

UNSW Co-op Program
The UNSW Co-op Program is a merit based career development scholarship program set up by industry and UNSW to provide financial reward and professional training and development for selected high achieving undergraduate students in the disciplines of Business, Science, Engineering and the Built Environment.

The UNSW Co-op Program is open to Year 12 students entering university for the first time, or those commencing university for the first time after a gap year. Students must be Australian Citizens or Permanent Residents of Australia and interested in studying programs offered under the UNSW Co-op Program. Co-op scholarship programs are all based on existing undergraduate programs at UNSW but with special features: UNSW Co-op Program scholars receive a tax-free scholarship of $15000 per annum ($60 000 for a four year degree; $75 000 for a five year degree), a minimum of three structured industry training placements (between 9 and 18 months) gaining valuable work experience with different sponsor companies and a series of development programs designed to further enhance their professional skills and capabilities.

3. Enrolment

(1) An application for admission as a candidate for the degree must be made either online or on the prescribed form which will be lodged with the Graduate Research School or Student Administration at UNSW®/ADFA at least two calendar months before the commencement of the semester in which enrolment is to begin. Applications for enrolment in a Cotutelle PhD degree are accepted under the conditions specified in the University Policy on Cotutelle PhD Degrees.

(2) Before making the offer of a place the Committee must be satisfied that appropriate supervision, space and resources to support the research to be undertaken are available in the School of enrolment. All students will be enrolled in a School or an approved unit within the Faculty authorised to enrol research students and under the control of the Faculty Dean.

(3) The candidate must be enrolled either as a full-time or a part-time student.

(4) All candidates must undertake the research at an approved UNSW location i.e. at a campus, teaching hospital, or other research facility of the University. The Committee may permit a candidate to spend a period of time in the field, within another institution or at another location provided that the research can be supported and supervised in a manner satisfactory to the Committee. In such instances the Committee will be satisfied that the location and period of time away from the University are necessary to the research program.

(5) All candidates must have appointed either a supervisor and a co-supervisor, or two joint supervisors, or a supervisory panel, in accordance with the procedures and definitions specified in the University Policy on Higher Degree Research Supervision.

(6) The Committee may specify that the candidate complete coursework relevant to the proposed research program at a specified pass level.

control of the candidate have impacted on the candidature. The Committee may approve a further extension under exceptional circumstances.

4. Progression

(1) The progress of the candidate will be monitored by the Committee throughout the candidature.

(2) The enrolment of all candidates is subject to confirmation.
   (a) In addition to a progress review, the first annual review must include consideration of the confirmation of candidature.
   (b) Satisfactory progress, as assessed in accordance with the University procedures for confirmation of candidature between
       six and nine months after enrolment, is required in order for the candidature to be confirmed.
   (c) The confirmation period may be extended for the purpose of re-assessment as per 4.4(c) but the full confirmation period
       may not be extended beyond fifteen months for full-time candidates or thirty months for part-time candidates.

(3) Following the confirmation review:
   (a) The progress of all candidates must be assessed at least annually at subsequent reviews in accordance with the University
       procedures for reviewing the progress of higher degree research candidatures.
   (b) Re-enrolment in each year of the degree is conditional upon approval of the Committee following the annual review
       of candidature.

(4) As a result of the review process, including the confirmation review and subsequent reviews, the Committee will determine to:

       to prescribed conditions and/or criteria that will be provided to the candidate in writing, or
   (d) transfer the candidature to a Masters Degree (Research), or
   (e) take such other action regarding the candidature as it considers appropriate.

(5) Where the progress of a candidate towards the completion of the degree is unsatisfactory, the Committee may:

       conditions and/or criteria that will be provided to the candidate in writing; and/or
   (b) require the candidate to show cause as to why that candidature should not be terminated. In such cases, the candidate
       must be given written notification of the reasons for the unsatisfactory progress and must be provided with the opportunity
       to make a written submission to the Committee; and/or
   (c) terminate the candidature, where, in the opinion of the Committee, the candidate does not show good cause.

   (a) it must be an original and significant contribution to knowledge of the subject;
   (b) the research work described must have been completed during the period of enrolment for the degree;
   (c) it must be written in English except that a candidate in the Faculty of Arts and Social Sciences may be permitted by the
       Committee to write a thesis in an appropriate language as specified in the Faculty guidelines on submission of a thesis in
       a language other than English;
   (d) it must reach a satisfactory standard of expression and presentation;
   (e) it must consist of an account of the candidate’s own research. All research performed conjointly with other persons must

(c) The thesis requires further work on matters detailed in the report. Should performance of this further work be to the satisfaction of the Committee, the thesis would merit the award of the degree.

(d) The thesis in its present form does not merit the award of the degree and further work as described in the report is required. The revised thesis should be subject to re-examination.

(e) The thesis does not merit the award of the degree and does not demonstrate sufficient merit to warrant resubmission.

(4) The Committee must consider the recommendations of the examiners and the basis for those recommendations provided in the written reports, and decide whether or not the candidate be awarded the degree and which of the recommendations specified in (3)(a)–(e) will be implemented.

(a) The Committee, in making this decision, may:
   (i) appoint an additional examiner for the thesis, or
   (ii) seek further advice on the thesis from an assessor or panel of assessors who are independent of the preceding examination process, or
   (iii) require the candidate to submit an oral examination under conditions specified by the Committee.

(b) In determining whether the performance of further work recommended under (3c) is to the satisfaction of the Committee, the Committee may seek additional expert advice from an assessor or panel of assessors on the further work that has been performed.

(c) In the case of a decision that the revised thesis should be the subject of re-examination as specified under (3d), the examiners who recommended re-examination must be appointed to re-examine the thesis. If one or more of the original examiners decline to re-examine the thesis the Committee must appoint new examiner(s) in their place.

(d) The examiner may not recommend option 3(d) for a re-examined thesis. The Committee, in making a decision on whether the revised and re-examined thesis has satisfied the conditions for the award of the degree, may seek further advice on the examiners’ reports and the revised thesis as specified in (4a)(ii) and (iii).

(e) In the case of a decision by the Committee not to award the degree as specified under (3e), the candidate must be given written notification of the reasons for this recommendation, and must be provided with the opportunity to make a written submission to the Committee.

(f) In the case of a decision by the Committee not to award the degree as specified under (3e), the Committee may consider whether the candidate has satisfied the conditions for the award of a Masters by Research degree. (a) The thesis is satisfactory.

(b) The thesis is satisfactory subject to minor corrections as listed being made to the satisfaction of the Head of School.

(c) The thesis requires further work on matters detailed in the report. Should performance in this further work be to the satisfaction of the Higher Degree Committee, the thesis would be satisfactory.

(d) The thesis is not satisfactory in its present form and further work as described in the report is required. The revised thesis should be subject to re-examination.

(e) The thesis is not satisfactory and does not demonstrate that resubmission would be likely to alter that assessment.

(4) The Committee shall, after consideration of the examiners' reports and recommendations on the thesis, decide whether or not the candidate be awarded the degree.

**Note: Policy with Respect to the Use of Higher Degree Theses**

The University holds that the deposit copies of a thesis submitted for a higher degree and retained in the Library should be retained not only for record purposes but also, within copyright privileges of the author, should be public property and accessible for consultation at the discretion of the University Librarian. As digital theses are freely available to the public, candidates must obtain permission for use of copyright material and sign off accordingly. Otherwise such material will need to be restricted. The University also recognises that there may be other exceptional circumstances requiring restrictions on copying or conditions of use of paper copies, and restrictions or partial restrictions of digital copies. Another option is that digital theses may be restricted to the UNSW campus domain. It is expected that restricted digital theses will still be submitted with metadata, such as the abstract, being publicly available. There may be exceptional circumstances when even the metadata will not be made available.

Requests for restriction of access to a thesis for a period of up to two years must be made in writing to the Dean of Graduate Research. Requests for a longer period of restriction may be considered in exceptional circumstances if accompanied by a letter of support from the supervisor or Head of School.

being on that Roll at the time specified in the notice referred to in clause 16 for the close of nominations for the relevant election.

of any of the remaining candidates so as to indicate, by numerical sequence, the order of the voter’s preference for them.
(3) The voter is to send or deliver to the Returning Officer the ballot paper enclosed (without anything else) and sealed in the
envelope marked “Ballot Paper”, which must be enclosed and sealed in the other envelope addressed to the Returning Officer,

(2) The Returning Officer is to declare elected the candidate who has received the largest number of first preference votes, if that number constitutes an absolute majority of votes.

31. Procedure if no candidate has absolute majority of votes
(1) If no candidate has received an absolute majority of first preference votes, the candidate who has received the fewest first preference votes is to be excluded and each of the ballot papers counted to that candidate is to be counted to the continuing candidate next in order of the voter's preference.
(2) The Returning Officer is to declare elected any candidate who, on completion of the count under subclause (1), has received an absolute majority of votes.
(3) If 2 or more candidates have an equal number of votes at the time that it is necessary to exclude one of them, the candidate to be excluded is to be determined as follows:
   (a) the names of the candidates concerned must be written on separate and similar slips of paper,
   (b) the slips must be folded so as to prevent identification and mixed and drawn at random,
   (c) the candidate whose name is first drawn must be excluded.

32. Process to continue until candidate elected
The process of excluding the candidate who has the fewest first preference votes and counting each of the ballot papers counted to that candidate to the continuing candidate next in order of the voter's preference is to be continued until:
   (a) one continuing candidate has an absolute majority of votes, in which case the Returning Officer is to declare that candidate elected, or
   (b) there are only 2 continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes is to be declared elected, even if the number of votes is below an absolute majority of votes, or
   (c) there are only 2 continuing candidates who have an equal number of votes, in which case the candidate elected must be determined as follows:
      (i) the names of the candidates concerned must be written on separate and similar slips of paper,

36. Determination of quota
The Returning Officer is to determine a quota by:
   (a) counting the number of first preference votes, and
   (b) dividing the total number of those votes by 1 more than the number of candidates required to be elected, and
   (c) increasing the quotient so obtained (disregarding any remainder) by 1.

37. Candidate who meets or exceeds quota elected
(1) The first preference votes for each candidate are to be counted.
(2) The Returning Officer is to declare elected each candidate who has received a number of first preference votes that is equal to or greater than the quota.
38. Procedure if further position to be filled

(1) If any further position remains to be filled, the surplus votes of each elected candidate are to be transferred to the continuing candidates as follows:

(a) the transfer value of the surplus votes is to be ascertained by dividing the number of surplus votes of the elected candidate by the number of first preference votes received by that candidate,

(b) the total number of ballot papers of the elected candidate showing the next available preference for a particular continuing candidate is to be multiplied by the transfer value,

(c) the number so obtained (disregarding any fraction) is to be added to the number of first preference votes of the particular continuing candidate,

(d) all those ballot papers are to be transferred to the particular continuing candidate.

(2) The Returning Officer is to declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.

39. Procedure if insufficient candidates have reached quota

(1) If, after the counting of first preference votes or the transfer of surplus votes (if any) of elected candidates, no candidate has (or fewer than the number of candidates required to be elected have) received a number of votes equal to or greater than the quota, the candidate who has the fewest first preference votes is to be excluded and the count is to proceed in accordance with this clause.

(2) All ballot papers showing a first preference vote for an excluded candidate and the next available preference for a particular continuing candidate are to be transferred, each ballot paper at a transfer value of 1, to the particular continuing candidate and added to the number of votes of the particular continuing candidate.

(3) Any ballot papers obtained by an excluded candidate by means of a transfer to that candidate are to be transferred (beginning with the ballot papers received by that candidate at the highest transfer value and ending with the ballot papers received at the lowest transfer value) as follows:

(a) the total number of ballot papers received by the excluded candidate at a particular transfer value from a particular candidate and showing the next available preference for a particular continuing candidate are to be multiplied by that transfer value,

(b) the number so obtained (disregarding any fraction) is to be added to the number of votes of the particular continuing candidate,

(4) The Returning Officer is to declare elected each continuing candidate who, on the completion of the transfer, has received a number of votes equal to or greater than the quota.

(5) However, the surplus votes of the candidate so elected are not to be transferred until all the ballot papers of the excluded candidate have been transferred.

40. No transfer of surplus votes or ballot papers to continuing candidate who reaches or exceeds quota

If a continuing candidate has received a number of votes equal to or greater than the quota on the completion of the transfer of:

(a) the surplus votes and ballot papers of an elected candidate, or

(b) the ballot papers of an excluded candidate,

no surplus votes or ballot papers of any other candidate are to be transferred to the candidate so elected.

41. Transferred ballot papers of elected candidates taken to be first preferences

Each ballot paper of an elected candidate that was obtained by means of a transfer from a previously elected candidate or an excluded candidate is, for the purpose of the transfer of the surplus votes of the elected candidate, to be dealt with as if:

(a) any vote it shows for the candidate concerned were a first preference vote, and

(b) the name of any other candidate previously elected or excluded had not been on the ballot paper, and

(c) the numbers indicating subsequent preferences had been altered accordingly.

42. Procedures to continue until positions filled

The procedure of transferring to the continuing candidates the surplus votes of elected candidates, and the procedure of excluding the candidates with the fewest first preference votes, are to continue in accordance with this Division until:

(a) the number of continuing candidates is equal to the number of positions remaining to be filled, in which case the Returning Officer is to declare those candidates elected, or

(b) there is only one position remaining to be filled and only 2 continuing candidates who do not have an equal number of votes, in which case the candidate with the larger number of votes is to be declared elected, even if the number of votes is below the quota, or

(c) there is only one position remaining to be filled and only 2 continuing candidates who have an equal number of votes, in which case the candidate elected must be determined as follows:

(i) the names of the candidates concerned must be written on separate and similar slips of paper,

(iii) the candidate whose name is first drawn is elected.

(3) If a person standing as a candidate in both elections is declared elected in the 4 year term election:

(a) the person is excluded as a candidate in the 2 year term election, and

(b) each ballot paper received for the 2 year term election is to be dealt with as if:

(i) the name of any candidate excluded under paragraph (a) has not been on the ballot paper, and
(ii) the numbers indicating subsequent preferences (that is, subsequent to the preference indicated for any excluded candidate) had been altered accordingly.

(4) In addition to the grounds for informality provided for in clause 25, a ballot paper received for the 2 year term election is informal if the voter’s preferences relate only to candidates excluded under subclause (3) (a).

(5) Except as provided by this clause, the 2 year term and 4 year term elections are to be conducted, and the results of the ballots determined, in accordance with this Part.

In the interval the Dean shall act as Presiding Member of the faculty. 3.11 Nothing in these rules affects the precedence or authority of the Council, the Chancellor, the Deputy Chancellor, the Vice-Chancellor or the Dean.
4. Election Procedures

Application of these procedures

4.1 Except as otherwise provided in the Act, the By-law and other sections of these Rules, the election procedures (“Election Procedures”) set out in this section 4 are prescribed for the conduct of elections to Academic Board, Faculty Boards and offices within those boards.

Returning Officer

4.2 The Registrar shall be the Returning Officer. The Returning Officer may prescribe any necessary procedures or forms for the conduct of the election, provided they are not inconsistent with these Election Procedures or any other instruments under which the election is conducted.

The Returning Officer’s decision is final on all matters affecting the eligibility of candidates, the conduct and results of an election and such other matters as may from time to time affect the conduct of an election.

Eligibility

4.3 Eligibility criteria to nominate candidates, stand for election and vote in an election shall be as prescribed in any applicable By-law, Rule or resolution of the Council or Academic Board.

Nominations

4.4 The Returning Officer must allow a minimum period of 14 days for nominations to be received, followed by a minimum of 28 days from close of nominations to the close of ballot.

4.5 (a) Not less than 14 days before the close of nominations, the Returning Officer must issue a notice. The notice must be:

4.5 (a)(i) published on the University website, and

4.5 (a)(ii) published in such other places as the Returning Officer may determine.

4.5 (b) For the purposes of s4.5(a), the notice must:

4.5 (b)(i) state that an election is to be held to fill the position or positions concerned;

4.5 (b)(ii) specify the time appointed for the conduct of election;

4.5 (b)(iii) invite the nomination of persons for election;

4.5 (b)(iv) specify the way in which nominations are to be made;

4.5 (b)(v) specify the date and time by which nominations must reach the Returning Officer (being a date that is at least 28 days before the close of ballot);

4.5 (b)(vi) state how voters may cast a vote;

4.5 (b)(vii) state that (in the case of a postal ballot) ballot papers will be posted to persons entitled to vote in the election and that ballot papers which do not reach the Returning Officer by close of ballot will not be counted in the election;

4.5 (b)(viii) give details of the number of positions to be filled and of their respective terms, and

4.5 (b)(ix) contain such other information relating to the election as the Returning Officer may determine.

4.6 Nominations shall be lodged in writing with the Returning Officer no later than the time and date specified in the notice under section 4.5(b)(v). A nomination shall not be valid unless it contains the signed consent of the candidate, is signed by 2 persons entitled to vote at the election for which the candidate is nominated and is received by the Returning Officer before the close of nominations. There must be a separate nomination paper for each candidate.

4.7 A candidate may provide in the manner and within the time specified by the Returning Officer a recent photograph and a statement of not more than 150 words containing information relating to the candidate that he or she wishes to supply for publication in connection with the election. That information may include, for example, such of the following as may be applicable to the candidate:

4.7 (a) name;

4.7 (b) faculty, school or department;

4.7 (c) course and academic year;

4.7 (d) academic qualifications;

4.7 (e) occupation and experience;

4.7 (f) positions or offices held at any time in public bodies, clubs and institutions (including University clubs and societies) with dates of tenure, and

4.7 (g) honours and distinctions.

4.8 The Returning Officer may edit statements supplied. Statements containing more than 150 words will be reduced so as not to exceed that limit.

4.9 The Returning Officer is to reject a nomination if satisfied that:

4.9 (a) the nomination is not duly made; or

4.9 (b) the person nominated is not eligible to be elected.

4.10 Prior to the expiration of the time for receiving nominations the Returning Officer shall keep confidential information concerning particular nominations, but nothing in this section 4.10 shall prevent the Returning Officer from disclosing to the presiding member or officer of the relevant body whether sufficient nominations have been received.

4.11 As soon as practicable after the close of nominations, in such places and in such manner as the Returning Officer shall determine, the Returning Officer shall publish by notice in writing:

4.11 (a) a list of the candidates and the names of their nominators;

4.11 (b) where the number of candidates in any electorate does not exceed the number of vacancies, a declaration that the candidates are elected, and

4.11 (c) where the number of candidates in any electorate exceeds the number of vacancies in that electorate, the date upon which an election shall be held.

4.11 (d) Where no, or insufficient, nominations are received the Returning Officer shall, after making any relevant declarations under s4.11(b), call (“second call”) for further nominations for the vacancies remaining to be filled. The second call shall
follow the procedures set out above in section 4 as if for a fresh election. Notwithstanding that a second call may not result in a sufficient number of candidates to fill all vacancies or to cause a ballot to be conducted, no further calls may be made.

4.12 Where an election is required to be held, the Returning Officer shall, in such manner as the Returning Officer determines:

4.12 (a) prepare a roll of eligible voters, for each relevant electorate, as at the close of nominations, and

4.12 (b) make a list of the names on the relevant roll available for inspection by any person eligible to vote in the election during the period from the close of nominations to the close of ballot.

4.13 The above notice must specify the date of any election to be held.

Ballots

4.14 Ballots may be conducted by post, by personal voting or by way of an electronic voting program where such a program has been approved for use by the Registrar. Subject to the Act, the By-law and these Rules the Returning Officer shall determine which method or methods shall be used for any particular ballot.

“Ballot paper”: In this section 4 a reference to “ballot paper” includes, where the context requires, a document upon or through the medium of which a person may cast a vote.

4.15 The Registrar may approve an electronic voting program for use where he or she is satisfied that the program:

4.15 (a) will provide a voter with instructions on how to vote;

4.15 (b) will allow a voter to indicate his or her choice of candidate(s);

4.15 (c) gives a voter an opportunity to correct any mistakes before submitting his or her vote;

4.15 (d) will allow a voter to make an informal vote;

4.15 (e) will not allow a person to find out how a particular voter cast his or her vote;

4.15 (f) will not allow a voter to vote more than once for any ballot;

4.15 (g) will only allow a voter to vote in an election for which he or she is eligible to vote, and

4.15 (h) is designed to give the same result as would be obtained if the ballot were conducted by post or by personal voting.

4.16 Each ballot paper must contain the names of the candidates in the order determined by the Returning Officer in the following way:

4.16 (a) the names of the candidates concerned are to be written on separate and similar slips of paper;

4.16 (b) the slips are to be folded so as to prevent identification;

4.16 (c) the slips are then to be mixed and drawn at random,

4.16 (d) the candidates’ names are to be listed in the order in which they are drawn.

4.17 A voter is to mark a vote on the ballot paper by placing the symbol specified in the voting instructions accompanying the ballot paper opposite the name of the candidate(s) for whom the voter desires to give a vote.

4.18 Each candidate is entitled to nominate one scrutineer. A candidate who wishes to nominate a scrutineer must notify the Returning Officer by close of business 7 days before the close of ballot and provide contact details for the scrutineer.

4.19 For a postal ballot:

4.19 (a) each voter is to be sent (at least 14 days prior to the close of ballot) a ballot paper, a notice setting out how the ballot paper is to be completed and specifying the date and time of the close of ballot, and 2 envelopes, one marked “Ballot Paper” and the other addressed to the Returning Officer,

4.19 (b) the edited statements, and a copy of any photograph supplied, are to be printed and distributed with the ballot papers.

4.19 (c) there must be printed on the envelope addressed to the Returning Officer a form of declaration of identity and entitlement to vote to be signed by the voter.

4.19 (d) the fact that a person whose name is on the relevant roll did not receive a ballot paper does not invalidate an election.

4.19 (e) A ballot paper must be initialled by the Returning Officer or by a person authorised by the Returning Officer to do so. A ballot paper stamped with a facsimile of the relevant initials is taken to be initialled in accordance with this section 4.19(e).

4.19 (f) The voter is to send or deliver to the Returning Officer the ballot paper enclosed (without anything else) and sealed in the envelope marked “Ballot Paper”, which must be enclosed and sealed in the other envelope addressed to the Returning Officer, with the form of declaration as to identity and entitlement to vote duly completed.

4.19 (g) All envelopes received by the Returning Officer must remain unopened until the close of the ballot.

4.20 For a personal ballot:

4.20 (a) Notices specifying the time(s) and location(s) appointed for the election are to be published on the University website and in such other places as the Returning Officer may determine at least 7 days prior to the close of ballot.

4.20 (b) Voters who are unable to attend campus to cast a personal vote because of program requirements, and who request a vote, shall, if practicable, be allowed the opportunity to vote by an electronic or postal vote as determined by the Returning Officer.

4.20 (c) The edited statements, and a copy of any photograph supplied, are to be displayed at the polling location(s).

4.20 (d) A ballot paper must be initialled by the Returning Officer or by a person authorised by the Returning Officer to do so at the time of issuing the ballot paper to the voter.

4.20 (e) The voter is to place his or her ballot paper in the ballot box provided at the voting location.

4.21 For an electronic ballot:

4.21 (a) Each voter is to be emailed (at least 7 days prior to the close of ballot) a notice detailing the nature of the election and setting out instructions on how to access the electronic voting program. The Returning Officer may, at his or her discretion, allow the opportunity for postal voting by a voter who, due to special circumstances peculiar to him or her, is unable to access the electronic voting program and who makes a timely request for a postal vote.

4.21 (b) The fact that a person whose name is on the relevant Roll of the University did not receive the email notice described in section 4.21(a) does not invalidate an election.

4.21 (c) The edited statements, and a copy of any photograph supplied, are to be published online and accessible by way of a link included in the e-mail sent to each voter in accordance with section 4.21(a).

4.21 (d) The voter is to submit his or her vote in accordance with the instructions provided in the electronic voting program.
4.22 All formal ballot papers received by the Returning Officer before the close of ballot are to be counted in the ballot.
4.23 No voter shall vote more than once in any election.
4.24 No ballot paper shall be issued or accepted after the close of the ballot.

Procedure on close of ballot

4.25 In the case of a postal ballot, as soon as practicable after the close of ballot, the Returning Officer, in the presence of those of the scrutineers that choose to be present:
4.25 (a) is to open the envelopes addressed to the Returning Officer and received before the close of the ballot,
4.25 (b) if the declaration of identity and entitlement to vote is duly signed by a qualified voter, is to place the unopened envelope containing the ballot paper with other similar envelopes,
4.25 (c) is to open the envelopes referred to in paragraph (b) and take out the ballot papers, and
4.25 (d) is to count the votes and ascertain the result of the ballot in the manner set out below.

4.26 In the case of an electronic ballot, as soon as practicable after the close of ballot, the Returning Officer is to count the votes and ascertain the result of the ballot in the manner set out below.

4.27 In the case of a personal ballot, as soon as practicable after the close of ballot, the Returning Officer, in the presence of those scrutineers that choose to be present, is to open the ballot box, take out the ballot papers, count the votes and ascertain the result of the ballot in the manner set out below.

Vote Counting

4.28 The Returning Officer is to reject any informal ballot papers and count the formal ballot papers.
4.29 A ballot paper shall be informal if:
4.29 (a) marked other than in accordance with the voting instructions accompanying the ballot paper;
4.29 (b) no vote for any candidate on the ballot paper has been indicated;
4.29 (c) votes for more candidates than are to be elected are indicated on the ballot paper.

4.30 The Returning Officer is to count the number of votes for each candidate.
4.31 The candidate(s) having the highest numbers of votes, being a number of candidate(s) equal to the number of positions to be filled, shall be declared elected.

4.32 If an equality of votes between two or more candidates prevents the declaration of elected candidates, the vote count will proceed as follows:
4.32 (a) the names of those candidates with such an equality of votes will be written on separate and similar slips of paper,
4.32 (b) the slips must be folded so as to prevent identification and mixed and drawn at random,
4.32 (c) the candidate whose name is first drawn shall be declared elected, and
4.32 (d) this process is to continue until all remaining positions are filled.

4.33 The Returning Officer shall make available details of the most recent vote count to any member of the University or of its Professional and Technical staff. The Returning Officer may, in his or her absolute discretion, provide in writing details of the most recent vote count upon written request of a person eligible to nominate candidates, stand for election and vote.
